WORLD-CLASS TECHNICAL EDUCATION FROM THE PHILIPPINE AUTO INDUSTRY LEADER
HISTORY AND FOUNDERS

The Toyota Motor Philippines School of Technology or TMP Tech is a world-class technical educational institution founded by Toyota Motor Corporation (TMC) Honorary Chairman Dr. Shoichiro Toyoda and Toyota Motor Philippines Corporation Chairman Dr. George S.K. Ty.

With the objective of addressing the challenges brought about by a constantly evolving and progressive automotive industry, TMP Tech has initiated steps to ensure that the Philippines and Toyota will continue to remain competitive in both the local and global automotive markets.

At TMP Tech, students are nurtured by competent school officials and instructors who help harness each student’s potential by developing superior technical aptitude and know-how. Coupled with world-class facilities, TMP Tech serves as the ideal breeding ground for the next generation’s highly-skilled automotive technicians.

VISION AND MISSION

OUR VISION
To be the school of choice for technical education and be the best source of talent for the Toyota Global Network, providing a better future for the Filipino society.

OUR MISSION
As a world-class automotive technical school, TMP Tech commits:

To provide excellent technical education through highly competent trainers, a superior curriculum which is of international standards, and state-of-the-art equipment/facilities

To develop well-rounded technical professionals by providing a conducive learning environment

To strengthen relationships with local and international automotive partners through continuing education and On-the-Job Training of the students, as well as for possible employment of graduates
COMPETITIVE ADVANTAGES

ADVANCED, FAST-TRACK CURRICULUM
TMP Tech offers a 2-year regular Automotive Servicing Course - General Job Program, certified by the Technical Education and Skills Development Authority (TESDA). At the end of the program, the TMP Tech graduate achieves the equivalent of a Toyota Pro-Technician level. Graduates could also pursue an intensive course that would earn them the Diagnosis Technician level. TMP Tech and TESDA also have an Industry Immersion Program for continuous upgrading of technical education in the country.

STATE-OF-THE-ART FACILITIES AND A HIGH EQUIPMENT-TO- STUDENT RATIO
TMP Tech is equipped with world-class training equipment and highly-trained instructors. There are fewer students to a piece of equipment to ensure thorough hands-on practice during their training.

STRONG ACADEMIC-INDUSTRY LINKAGE PROGRAM
Through a strong academic-industry linkage program, graduates of TMP Tech are given priority for employment in the local and global Toyota dealer network.

MAKING ITS MARK ON TOYOTA’S GLOBAL NETWORK
TMP Tech is fast gaining attention from Toyota’s global affiliates with Toyota Motor Corporation (Japan) VIPs visiting, as well as Toyota regional conferences being held in the Philippines with the school as the conference center.

4th ASIAN TECHNICAL SERVICE CONFERENCE
The annual conference on regional technical issues is attended by officials from Toyota Motor Corporation Japan (TMC), Toyota Motor Asia Pacific (TMAP), and its numerous affiliates from across the Asia-Pacific region.

2014 ASIA PACIFIC SOCIAL CONTRIBUTION MEETING
Toyota officials handling Social Contribution in the Asia Pacific operations held its meeting in the Philippines and toured TMP Tech as one of the showcased best Corporate Social Responsibility programs of Toyota in the country.
WORLD-CLASS FACILITIES

Situated in Santa Rosa City, Laguna, the TMP Tech building, designed by world-renowned architect William Coscolluela, was built on a one-hectare lot within the 82-hectare Toyota Special Economic Zone.
With the mission to provide the Filipino youth with quality technical education and a brighter future, TMP Tech extends this opportunity to financially-challenged but deserving students by providing scholarship grants or financial assistance.

Aside from sponsoring its own scholars, TMP Tech has signed agreements with Toyota-affiliated institutions such as Toyota Motor Philippines Foundation, GT-Metro Foundation and Toyota Dealers Association for scholarship grants. Currently, TMP Tech continues to establish partnerships with institutions and individuals who share the same advocacy.

TMP Tech also offers the “Study Now, Pay Later” program, which allows the students to pay back their cost of education on installment basis after they have been gainfully employed.

**SCHOLAR TESTIMONIALS**

**GILBERT E. BERINGIA, 16**  
Toyota Motor Philippines Foundation Scholar

“I took the scholarship exam because one of my dreams is to become a technician like my father. Apart from this, I also have a keen interest in fixing cars. TMP Tech has provided me with a path I can use to reach my dreams. Because of TMP Tech, I am instilled with values and principles that make me into a better person while also being provided with knowledge that I can use as an automotive professional.”

**DAISERIN V. CAJILIG, 18**  
GT-Metro Foundation Scholar

“For me, TMP Tech offers the best technical-vocational program not only because it carries the Toyota name but because of its great capability to teach and provide the best learnings they can offer to both the youth and adults. After graduating from this program, I intend to seek employment either with a local or international Toyota affiliate. I want to prove that women, not only men, can also excel in this kind of profession. I want to be one of the best Toyota technicians locally and globally. I see TMP Tech as my stepping stone to success. It bridges the gap between my ordinary life and the life of success. TMP Tech not only builds for me a road to success, but even provides the vehicle so that I can reach my destination towards a better future.”

**CHRISTIAN PAUL A. ACOSTA, 16**  
Toyota Alabang Scholar

“I believe that programs like TMP Tech’s two-year automotive servicing course offers good alternative careers to both the youth and adults but most especially to the out-of-school youth because the course only takes two years to finish. I know that very few are given the chance to be enrolled and become a scholar at TMP Tech. Being a scholar is a big help to my family and it brings me closer to achieving my goals and fulfilling my dreams. I wholeheartedly appreciate the opportunity.”

**HOW TO APPLY**

Applicant must:
1. Be a high school graduate
2. Be at least 16 years old upon enrollment
3. Pass the following:
   a. Written entrance exam
   b. Practical exam
   c. Interview
   d. Medical exam
TMP Tech envisions its students to become highly-skilled automotive technicians and to ultimately achieve success as part of either the local or international skilled workforce. Because of its willingness to not only provide its students with world-class education but also with opportunities for gainful employment, TMP Tech has established numerous partnerships with various organizations, further ensuring success for its graduates.

**LOCAL**

One of TMP Tech’s main goals is to ensure that the local dealer network is well-supplied with highly-skilled automotive technicians in order to properly serve the after-sales needs of its customers. Given this, graduates of TMP Tech are prioritized for immediate employment in the numerous and continually expanding Toyota Dealer Outlets nationwide.

**INTERNATIONAL**

TMP Tech has established partnerships with various Toyota and non-Toyota organizations abroad to not only provide for the manpower requirements of its international affiliates, but also to ensure that its students have more employment opportunities upon graduation.

*As of October 2014

**Chisholm**

The Chisholm Institute is a Registered Training Organization (RTO) in Australia. TMP Tech has formed a partnership with Chisholm Institute in order to align its curriculum according to Australian standards. The result of this partnership is that graduates from TMP Tech will immediately be eligible for employment in Australia, Canada, and other Commonwealth countries.

**Abdul Latif Jameel**

Kingdom of Saudi Arabia

The school has an existing Specialized Toyota Automotive Training Program (STATP) with Abdul Latif Jameel Imports and Distribution Co. Ltd. (ALJID). Under this agreement, graduates of TMP Tech will be assigned for dispatch to ALJID’s continuously growing number of Toyota dealerships in the Kingdom of Saudi Arabia (KSA).
